## DETAILED ACTION

### *Continued Examination Under 37 CFR 1.114*

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/7/07 has been entered.

### *Claim Rejections - 35 USC § 112*

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 recites the limitation "said separate parties". There is insufficient antecedent basis for this limitation in the claim.

Claims 13,14 recites the limitation "said available primary digital bitstream". There is insufficient antecedent basis for this limitation in the claim.

Claims 2-12,15-20 dependent on claims 1,13,14

Regarding claim 13, the phrase "such as" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

Claims 21-31 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 21: It is unclear as to what is meant by "a regularly changing copy of a part of a an available and regularly changing primary digital data bit stream,".

Claims 22-31 dependent on claim 21.

Art Unit: 2135

*Claim Objections*

Claim 21 is objected to because of the following informalities: "a an available...". Appropriate correction is required.
